EXHIBITOR DIRECTORY

Driving sustainable value chains at SDG Asia 2026

The Center for International Trade Expositions and Missions (CITEM), the export promotion arm of the Philippine Department of Trade and Industry (DTI) debuts the Philippine participation to the 5th edition of SDG Asia with a curated delegation of green enterprises helping transition industries into sustainable movers for global sustainable development.

Exhibiting under CITEM's Sustainability Solutions Exchange (SSX) platform, the Philippine Pavilion responds directly to global demand for supply chain transparency, environmental compliance, and scalable sustainable solutions—positioning the country as an ideal, value-adding sustainability hub in the Asia-Pacific region.

Aligned with the UN Sustainable Development Goals (SDGs) and with the event's theme of "Shape our Future: Resilience, Innovation, Prosperity," the Philippine Pavilion features local enterprises highlighting sustainable agriculture practices, eco-conscious food and non-food products, design and lifestyle, as well as clean technology and innovative systems.

The Philippines is readily adapting to demands for global standards in reporting transparency and accountability under the Environmental, Sustainable, and Governance (ESG) framework. By integrating the country's local material innovation and highly skilled, adaptable workforce with Taiwan's leading sustainability and technology-driven infrastructures, the first Philippine participation at SDG Asia 2026 reflects a strategic cross-border economic synergy that is indicative of a unified goal for resiliency in global value chains.
